

ARMOR SMARTY PAK

RUST PREVENTION VCI + DESICCANT

DOUBLE TROUBLE FOR RUST

Life is full of give and take and now, with the ARMOR SMARTY PAK™, so is rust prevention. The ARMOR SMARTY PAK combines the giving power of an emitter to release metal-protecting VCI (vapor corrosion inhibitor) with the take-away-moisture abilities of a desiccant. The result is what we call the “deadly-duo of rust prevention” – say hello to the ARMOR SMARTY PAK.

The ARMOR SMARTY PAK was developed for use in environments where both moisture control and vapor corrosion inhibitors are required to adequately protect metal from rust and corrosion. SMARTY PAKs are one part ARMOR VCI Nanotechnology™ (our “secret formula” for vapor corrosion inhibitor to protect metal) and one part desiccant (to adsorb moisture). In simplest terms, SMARTY PAKs provide two-in-one rust prevention.

SMARTY PAK BENEFITS

- **EASY-TO-USE:** simply insert into container
- **DUAL PROTECTION:** combined benefit of VCI and desiccant
- **MESS FREE:** no cleaning, wiping or degreasing of metal
- **SAFE:** rust prevention free of oils, solvents and other harsh chemicals
- **SIZE OPTIONS:** NANO, MINI & QUAD sizes available
- **EXTENDED COVERAGE:** up to 24 months continuous protection

TAKING THE WORK OUT OF YOUR WORKDAY

ARMORSMARTYPAK

RUST PREVENTION VCI + DESICCANT

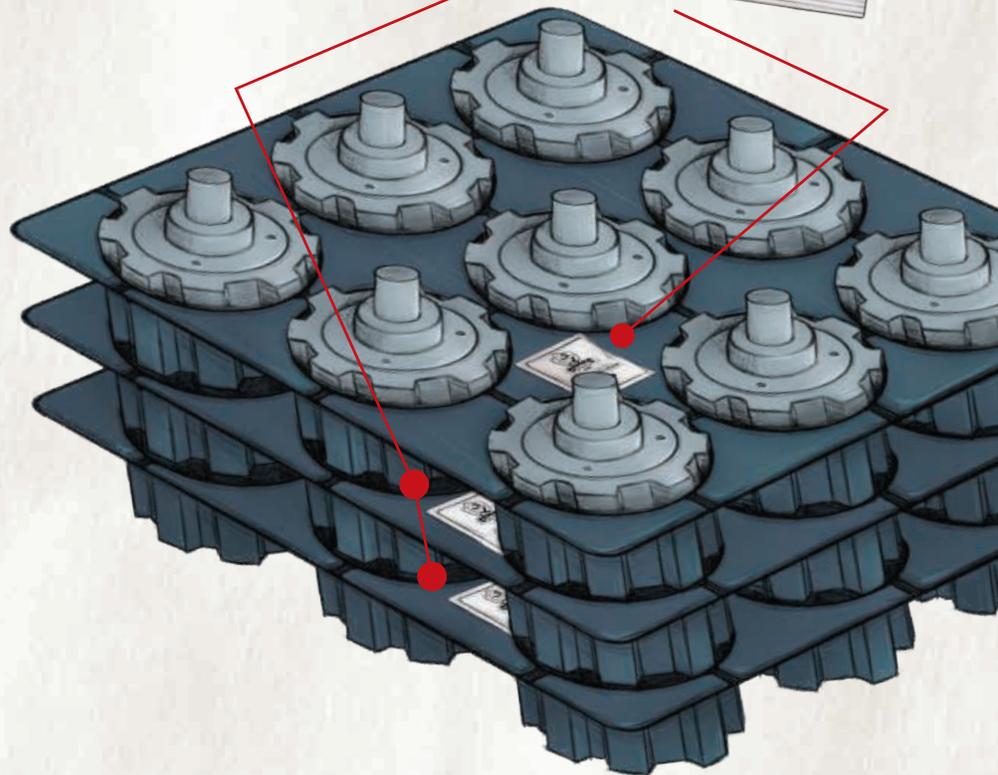

DEVELOPED BY SMARTY PANTS FOR SMARTY PANTS

The ARMOR SMARTY PAK is a super-charged, multi-tasking, rust-preventing powerhouse that simultaneously adsorbs moisture and emits VCI to form a protective shield on the surface of metal. What makes this PAK so smart? A specialty desiccant designed to adsorb moisture faster and hold on to it even at high temperatures, combined with ARMOR's rust-eradicating VCI. Smarter yet, SMARTY PAKS are available in three sizes, deliver multi-metal protection, and they are non-dusting and lint-free making them ideal for use in applications where fibrous packaging materials are not allowed.

SMART WAYS TO USE YOUR SMARTY PAK

Use the ARMOR SMARTY PAK to prevent rust during the storage, packaging or transport of metal/metal parts such as:

- Automotive components
- Engines and motors
- Pumps
- Electronic or electrical equipment
- Mechanical assemblies, parts, components, controls
- Machined or stamped parts
- Fuse/power/terminal boxes
- Toolboxes and parts storage

All items on the Stock & Ready™ product list are in-stock and ready-to-ship with no order minimums.

Stock & Ready™ orders placed by 1 p.m. EST will ship by next business day.
